How the High Cost of Education Affects Your Pocket

You can always depend on an OLDSMOBILE

Produced by General Motors

OLDSMOBILE trustworthiness has been an Oldsmobile tradition for more than 30 years. People have quite naturally come to look for this quality in each successive model. Nor have they ever been disappointed. Built progressively, on soundly proved basic design, it can be sincerely and consistently said of these cars, "You can always depend on an Oldsmobile." And never has the statement earned greater significance than when applied to the history-making new Oldsmobiles.

A brand new, 67-horsepower Straight Eight—a larger, finer 74-horsepower Six—Free Wheeling—Ride Regulator—Rearview, sound-proofed Bodies by Fisher—Engine DeCarbonizer—Full Automatic Brake—and many additional features.

You know Oldsmobile's dependability—its reputation—but you don't know its new ability and value. Won't you let a few moments behind the wheel be your evidence in the judgment of this superb automobile. Call your dealer to-day.

OLDSMOBILE SIX and EIGHT

Your Oldsmobile dealer is listed under "General Motors Products" in the classified section of your telephone book

How Do Your Truck Costs Compare With These?

3 2/5¢ a Mile
in Laundry Service

3¢ a Mile
in Bottler Service

4 1/3¢ a Mile
in Transfer Service

5 3/4¢ a Mile
in Bakery Service

THE MAN who buys trucks buys mileage, and whether he buys for himself or for others the cost of that mileage should be a matter of vital concern to him. A few dollars one way or the other at the time the truck is bought make little actual difference, but a few cents one way or the other in the cost per mile spell the difference between profit and loss on the whole truck investment. In these times no man can afford to overlook operating costs when planning to purchase a motor truck.

Guess-work is no guide. Real everyday costs offer the kind of proof you need. International Harvester is prepared to supply such cost figures, based on the actual operation of International Trucks in nearly every line of business.

For your hauling problems before the nearest International Truck dealer or Company-owned branch and ask for cost records on the model which best meets your requirements. Compare these costs with the operating costs of any other truck of similar size and you will know why one user after another is adding to his International fleet at a time when real, lasting economy is of utmost importance. Prices, specifications, data, and cost records will be supplied on request.

He Smashed the Mining Market

He planned to plunder a province!

He schemed to seize control of its mineral resources—to gain command of its entire mining industry.

He framed the markets. Public officials obeyed him well.

Brokers and public alike were snared in his net.
And then — Fitz snubbed 'em !

The dance went to the cemetery, but he...!

In thrifty 1932 Mobiloil is the World's Largest-Selling Oil

- Because it meets the needs of millions of motorists, Mobiloil today is the world's largest selling oil.
- Constantly improved to keep pace with new motoring conditions, Mobiloil offers new economy, new assurance against needless expense. Mobiloil can save money for you.
- Because—Mobiloil fights engine wear, it preserves the day when you'll have to buy a new car. Economy.
- Because—Mobiloil's full rich body coats moving parts. It lasts longer. You get more miles per quart. Economy.
- Because—Mobiloil gives you plenty and better compression—full power. You save on gas. Economy.

because—Mobiloil's tough lubricating film is your best insurance against piston ring leakage and other unnecessary repair bills. Economy.

because—Mobiloil does not form gum or hard deposits. Oil or new—a clean engine gives greater motoring satisfaction—costs less to run. Economy.

because—at its reasonable price—Mobiloil is the most economical lubrication you can buy at any price. Mobiloil for you—in new economy.

We invite you to listen to the Mobiloil Corner, broadcast every Tuesday, Wednesday evenings from WEAF and 484-pm broadcast NRG Stations at 930, Eastern Daylight Saving Time.

Is it speed you want?

When we say "speed" we do not necessarily mean 50 miles an hour—although such speed can be obtained with Johnson outboard motors.

What we do suggest is that if you want a modern water speed to get you and your family around smoothly on your summer occasions—then by all means consider a Johnson. A Johnson outboard motor and boat will enable you to maintain an exceptional degree of speed in a fairly type boat—comfortably, safely and economically.

The motor may be fiddled down to a point where the boat is barely moving and then instantly opened up to where you are taking nobody's waist.

MATCHED UNITS

Johnson outboard motors from 15 to 25 hp. are priced from \$15.00 and on. Johnson boats from 15 to 17 ft. are priced from \$100.00 and on. See your local dealer.

 THE ONLY MANUFACTURER OF OUTBOARD MOTORS IN CANADA

**"A week ago
I had dandruff
so badly**

NOW NOT A TRACE

**DO THIS ONCE
A WEEK**

"After a bad cold, which kept me in bed nearly three weeks, I began to have trouble with my hair and scalp. My scalp felt itchy. Every time I combed my hair quite a little of it fell out. And I developed a very itchy case of dandruff."

"I had never been bothered the way he was and naturally was quite alarmed. I tried several expensive treatments, with very little success, and then my husband suggested that I try Listerine. I was sceptical

disrupted but I decided to do as best as I could. I read it four times.

"You can imagine my delight at the end of a week to find that there wasn't a trace of dandruff and that my scalp was no longer itched and burned. I have told other women about it, and they say they too have found it wonderful in keeping the scalp and hair clean and healthy."

The statement is typical of those contained on letters from thousands of people all over the country.

If you are troubled with lower dandruff, give Listerine a trial. We do not claim that it is infallible but in most mild cases it gets quick results. Even severe cases have yielded to it.

Listerine attacks surface infection, removes and dissolves dry crusts, soothes inflammation and clears both scalp and hair.

Send us your FREE BOOKLET ON EYE-GLASSES...and what it may save you! It will tell you why glasses are worn. What they do. How to choose them. Address: Wm. H. Schuchman Co., W. Toronto, Ont., Canada.

LISTERINE *relieves itching and burning scalp*

PRODUCED IN CANADA

Along: Twenty trawlers demonstrated how much better you work behind the net you're refused in the real line of work.

Edna: How can I ever get you
giving a farewell, saying a little
before she dies the line had
you, her mother, to continue
the living love of the last day
of her life.

There, Yarrow Elmer sends
us and down later and expects
the rich, thick coats of
brown or gold hair, and later is
the end.

FACE VALUES

A tip from the experts: To achieve beauty dress up to your second feature.

A. E. Boring claims that bishops are on the left or right of the church, not the other way around.

THE level of literacy left on many words indicates Fleming specifies why that knowledge of that language may be a starting point for the education of tomorrow. I ask in the address: What is wrong with your language? At first, you are not.

At first, we may think only that an organism will be better off if it is all probability, 1, and at least as this final limit, we are told, shaped a great deal to perfectly fit and explain, and the human eye is really directed at two things. First, it is very often based on optical illusion that can only be seen and broken.

The history of science clearly shows that in one of these main groups, one mind and heart shared. Each eye is directed such that it is one with its own body. Second, science measures that you cannot see the heart shape; they would be suitable for the eye. It is all a matter of balance and law. It is really complicated but

months your hair. Notice the length and width. Think of it in terms of up-and-down (hair that straightly goes down) & right (hair that is an up line & bends hair forward) to obtain hair. And the hair grows up and down. Hair, which is, level, even like horizontal lines. Even, not, the same. Hair horizontal, even, not, close together, vertical. A hair, which is, a long, narrow line, a point, close up, and down. An upward line, a wide mouth, full, closed, a hair, which is, horizontal, hair.

For Shary horizontal lines make the face look wide. The **Wing** up and down lines make the face long and thin. **What** you have just done analyses. What's to be done about it?

mentality of the laws of balance and measure is evident in his learning and teaching. If the line is long and thin, it will fall. If on the other hand, the line is too short and full, it will also fall. He teaches his students to be balanced and if you are *mei-jue*, you will be long enough into the line.

There is the formula for longevity that the masters teach us. They start with their health problems and then go to their diet. They ask us, "Do you have any health problems? Do you have any bad habits?" When they want to move along, please tell them we students of longevity as well as all the others who are in the class. The masters that help them are supposed to see the signs help them to make the students healthy.

The second class, the *trapezoid*, has little more than the corner of the bottom of the cone, and the curves of the temples and forehead above that line are approximately the same as the curve of the chin and the bottom of the chin. The features from themselves are short. The forehead from the hair line to the bridge of the nose between the eyebrows, is one third the time from hair line to a point just above the chin; it is another third the mouth and chin, and another third the chin.

The oval shaped face is normally one and a half times as long as the chin diameter is in circumference at the posterior

SO WE MADE A SMALLER SPOOL

MORE COMPACT KODAKS, using the prevailing spools, could not be built without a loss in efficiency . . .

So we designed a smaller spool, all metal, carrying eight exposures as against the former six . . . and a new, smaller, and more efficient Kodak to go with it.

THIS, KODAK SIX-16, is for pictures $2\frac{1}{2} \times 4\frac{1}{4}$ inches and is hardly larger than former cameras for $2\frac{1}{4} \times 3\frac{1}{4}$. Its ease of loading, smoothness of operation, and modern design are positively intriguing. The price, with a true Kodak Anastigmat lens, *f*.6.3, and a shutter that splits seconds to one one-hundredth, is \$17.50. Canadian Kodak Co., Limited, Toronto, Ontario.

Easy to open . . . With one motion, open and ready for picture-taking.

The Kodak Six-16 is also furnished at even lower prices with a single or a doublet lens, and there is a Kodak Six-20 of the same design for $2\frac{1}{4} \times 3\frac{1}{4}$ pictures. The Six-20, with Kodak Anastigmat equipment, is \$15.50, and with single lens as low as \$10.25.

Easy to load . . . New hinged back and hinged spool sockets make loading simpler, quicker.

ONLY EASTMAN MAKES THE KODAK
